

IRISBOARD

SMART NOTICEBOARD

Enterprise Communication. Governed. Secure. Effective.

IRISBOARD is an AI-powered Enterprise Smart Noticeboard built for modern organizations to deliver the right information to the right audience — consistently, securely and in line with brand standards.

Brand Governance

Ensure brand consistency with templates, approvals and policy-enforced publishing across all screens.

Intelligent Content Curating

AI-curated, role-based and audience-relevant content that's timely, designed to drive attention and recall.

Information Security First

Enterprise-grade security with role-based access, audit logs, encryption and data protection by design.

Reel-like Content. Better Recall.

Short, engaging reel-style formats that capture attention and improve information retention.

Designed for the way Enterprises Communicate.

Ensure Brand Consistency

Uniform templates, approvals and brand guidelines across all screens.

Engage with Purpose

Dynamic, reel-like content that increases engagement and recall.

Measure What Matters

Real-time analytics to track reach, engagement and impact.

Scale with Confidence

Manage thousands of screens across locations with ease.
